Poetry.

My Lady.

The following original poem is taken from the New Orleans *Southern Review*, edited by Daniel K. Whitaker, L. L. D.:

There she stands.
Looking along the low and level lands
To where the sea-pulse beats upon the sands;
A scarlet blossom in her quiet hands,
My Lady!

Tall and fair.
Slender and pliant as young willows are;
From hem of robe to crown of braided hair,
Beauty's supreme and undisputed heir,
My Lady!

Richer glows
Her brow's immaculate ivory now shows—
Dipped in a blush. Thought's tender pencil throws
On each fair cheek the warm light of a rose—
My lady!

Through the pines,
An unexpected sunbeam slanting shines,
And softening more, the more that it declines,
The barren landscape brightens and refines,
My Lady!

Searching there,
It finds My Lady with her young head bare,
And stealing seaward, darts, with royal care,
A golden arrow through her golden hair.
My Lady!

Her gray eyes
Lift themselves upward, dreamy and cloud-wise.
To wander past aerial argosies,
Seeking an eye-path to the sunset skies,
My Lady!

Well she knows,
Toward the scaffold of the west there goes
Each eve a veiled young Day, who meekly bows
The neck beneath Time's unrelenting blows,
My Lady!

So she stands,
An . looks along the low and level lands,
To where the still sky stoops to stiller sands,
The scarlet flower fogotten in her hands,
My Lady!

Oh, to paint
Her face! Yet 'tis no face of any saint—
Withsuch I fain would never be acquaint—
In mortal beauty shonld be moral taint.
My Lady!

Yet, I swear,
She looks so pure and marvelously fair
She might be some embodied Christian prayer,
Just waiting to be wafted OVER THERE.
My Lady!

A memory,
A silent dreamer by a silent sea,
In her unusually beauty she must be,
For aye a dream, a vision unto me,
My Lady!

Yet I dare
Lay my proud soul where her feet resting are,
Believing she can lift it up afar,
Beyond the sunset, and beyond the star,
My Laidy

Miscellaneous.

The Civil Rights Bill.

Below we give the Civil Rights Bill as it passed the Senate:

A bill supplementary to an act entitled "An act to entitle all citizens in the United States to their civil rights, and to furnish the means for their vindication," passed April the 9th, 1866.

Be it enacted &c, That all citizens and other persons within the jurisdiction of the United States to their civil rights, and to furnish the means for their vindication, shall be entitled to the full and equal enjoyment of the accommodations, advantages, facilities, and privileges of inns, public conveyances on land or on water, theaters, and other places of public amusement; and also of common schools and public institutions of learning or benevolence supported in whole or in part by general taxation, and of cemeteries so supported, and also the institutions known as agricultural colleges endowed by the United States, subject only to the conditions and limitations established by law and applicable alike to citizens of every race and color, regardless of any previous condition or servitude.

SEC. 2. That any person who shall violate the foregoing section by denying to any person entitled to the benefits, except for reasons by law applicable to citizens of every race and color, and regardless of any previous condition of servitude, the full enjoyment of any of the accomodations, advantages, facilities, or privileges in said section enumerated, or by aiding or inciting such denial, shall, for every such offense, forfeit, and pay the sum of $500 to the person aggrieved thereby, to be recovered in an action on the case, with full costs; and shall also for every such offense, be deemed guilty of a misdemeanor, and, upon conviction thereof, shall be fined not more than $1,000, or shall be imprisoned not more than one year: *Provided,* That the party aggrieved shall not recover more than on penalty; and when the offense is the refusal of burial, the penalty may be recovered by the heirs at law of the person whose body has been refused burial. *And provided further,* That all persons may elect to sue for the penalty aforesaid or to proceed under their rights at common law and by State statues; and having so elected to proceed in the one mode or the other their right to proceed in the other jurisdiction shall be barred. But this proviso shall not apply to criminal proceedings, either under this act or the criminal law of any State.

SEC. 3. That the district and circuit courts of the United States shall have exclusively of the courts of the several States, cognizance of all crimes and offenses against, and violations of, the provisions of this act; and actions for the penalty given by the preceding section may be prosecuted in the territorial district or circuit courts of the United States wherever the defendant may be found, without regard to the other party. And the district attorneys, marshals, and deputy marshals of the United States, and commissioners appointed by the circuit and territorial courts of the United States, with powers of arresting and imprisoning or bailing offenders against the laws of the United States, are hereby specially authorized and required to institute proceeding against every person who shall violate the provisions of this act, and cause him to be arrested and imprisoned, or bailed, as the case may be, for trial before such court of the United States or Territorial court as by law has cognizance of the offense, except in respect of the right of action accruing to the person aggrieved; and such district attorneys shall cause such proceedings to be prosecuted to their termination as in other cases *Provided;* That nothing contained in this section shall be construed to deny or defeat any right of civil action accruing to any person, whether by reason of this act or otherwise.

Sec. 4. That no citizen possessing all other qualifications which are or may be prescribed by law shall be disqualified for service as grand or petit juror in any court of the United States or of any State, on acount of race, color or previous condition of servitude, and any officer or other person charged with any duty in the selection or summoning of jurors who shall exclude or fail to summon any citizen for the cause aforesaid shall, on conviction thereof be deemed guilty of a misdemeanor, and be fined not more than $1,000.

SEC. 5. That all cases arising under the provisions of this act in the courts of the United States shall be reviewable by the Supreme Court of the United States without regard to the sum in controversy, under the same provisions and regulations as are now provided by law for the review of other causes in said Court.

The President's Financial Memorandum.

The folowing memorandum of views on financial matters was made by President Grant, after a conversation with several prominent men. It was published at the solicitation of Senator Jones, of Nevada, who was present at the confrence:

"MEMORANDUM OF VIEWS ENTERTAINED ON THE SUBJECT OF RDESIABLE LEGISLATION ON THE FINANCES.

"I believe it a high and plain duty to return to a specie basis at the earliest practicable day, not only in compliance with legislative and party pledges, but as a step indispensible to lasting national prosperity. I believe, further, that the time has come when this can be done, or at least begun, with less embarrassment to every branch of industry than at any future time after resort has been had to unstable and temporary expedients to stimulate unreal prosperity and speculation on basis other than coin as the recognized medium of exchange throughout the commercial world.

"The particular mode selected to bring a restoration of the specie standard is not of so much consequence as that some adequate plan be devised, the time fixed when currency shall be exchangeable for coin at par and the plan adopted rigidly adhered to. It is not probable that any legislation suggested by me would prove acceptable to both branches of Congress; and, indeed, a full discussion might shake my own details of any plan I might propose. I will, however, venture to state that the general features of the action which seems to me advisable, the financial platform on which I would stand, and any departure from which would be in a spirit of concession and harmony in deference to conflicting opinions.

"*First*—I would like to see the legal tender clause, so-called, repealed, the appeal to take effect at a future time, say July 1, 1875. This would cause all contracts made after that date, for wages sales, &c., to be estimated in coin. It would correct our notions of values. The specie dollar would be the only dollar known as the measure of equivalents. When debts afterwards contracted were paid in currency, instead of calling the paper dollar a dollar and quoting gold at so much premium, we should think and speak of paper as at so much discount; this alone would aid greatly in bringing the two currencies near together at par.

"*Second*—would like to see a provision that at a fixed day, say July 1, 1876, the currency issued by the United States should be redeemed in coin on presentation to any Assistant Treasurer, and that all the currency so redeemed should be cancelled and never reissued. To effect this it would be necessary to authorize the issue of bonds payable in gold, bearing such interest as would command par in gold, to be put out by the Treasury only in such sums as should from time to time be needed for the purpose of redemption. Such legislation would insure a return to some financial principles in two years, and would, in my judgment, work less hardship to the debtor interest than is likely to come from putting off the day of final reckoning. It must be borne in mind, too, that the creditor interest had its day of disadvantage also when our present financial system was brought in by the supreme needs of the nation at the time.

"I would further provide that, from and after the date fixed for redemption, no bills whether of national banks of the United States, returned to the Treasury to be exchanged for new bills, should be replaced by bills of less denomination than $10, and that in one year after resumption all bills of less than $5 should be withdrawn from circulation, and in two years all bills of less than $10 should be withdrawn. The advantage of this would be strength given to the country against time of depression resulting from war, failure of crops, by keeping always in the hands of the people a large supply of the precious metals. With all small transactions conducted in coin there would be kept in constant use and, of course, prevented from leaving the country undoubtedly a poorer currency will always drive the better out of circulation. With paper a legal tender and at a discount, gold and silver become articles of merchandise as much as wheat or cotton. The surplus will find the best market it can. With small bills in circulation there is no use for coin except to keep it in the vaults of banks to redeem circulation. During periods of great speculation and apparent prosperity there is little demand for coin, and then it will flow out to a market where it can be made to earn something which it cannot do while lying idle. Gold like everything else, when not needed, become a surplus, and, like every other surplus, it seeks a market where it can find one. By giving active employment to coin, however, its presence can, it seems to me, be secured, and the panics and depressions which have occurred periodically in times of nominal specie payments, can at least be greatly mitigated. Indeed, I question whether it would have been found necessary to depart from the standard of specie in the trying days which gave birth to the Legal Tender act had the country taken the ground of no small bills as early as 1850.

"Again, I would provide an excess over current expenditures. I would do this by rigid economy and by taxation where taxation can best be borne. Increased revenue would work a constant reduction of debt and interest, and would provide coin to meet demands on the Treasury for the redemption of its notes, thereby diminishing the amount of bonds needed for that purpose. All taxes after redemption begins should be paid in United States notes.

"This would force redemption on the National banks. With measures like these, or measures which would work out such results, I see no danger in authorizing free banking without limit."

The Strength of Materials.

Gold may be hammered so that it is only 1-360,000 of an inch thick.

A grain of iron may be divided into 4,000,000 parts.

Still chemistry tells us that there are unlimited parts called atoms or molecules, which are absolutely indivisible. These atoms are attracted to each other by the attraction of cohesion, and repelled by the force of repulsion. By the actions of both these forces the atoms are kept in a state of rest. The solidity of a solid depends upon the fact that each pair of atoms are in this state of equilibrium. These atoms are supposed to be of an oblate, spheridal form.

A machine for testing the variation of sticks of wood consists of levers and screws so contrived that the amount of weight brought to bear upon the stick can be actually measured, even though it does not exceed one-seven-millionth of an inch.

And the Secretary is to be applauded for his decision, and all colleges with wise officers will imitate his example.

A Scotchman went to a lawyer once for advice, and detailed the circumstances of the case. "Have you told me the facts precisely as they occurred?" asked the lawyer. "Oh! ay, sir!" replied he; "I thought it best to tell ye the plain truth. Ye can put the lies into it yoursel."

Mr. Marrowfat's remarks to his son Alcibaiades, who is studying for a lawyer, is a good illustration of the sagacity of that extraordinary man. "Yes' the world owes you a living, my boy," said he "but be careful that it doesn't take advantage of the statute of limitations."

"Is is a settled principle, your honor,' said an eminent lawyer, "that causes always produce effects." "They always do for the lawyers," blandly responded the judge, "but I've sometimes known a single cause to deprive a client of all his effects."

THE ELIZABETH CITY AND NORFOLK RAILROAD COMPANY.

The NORTH CAROLINIAN has always advocated a railroad to Elizabeth City. It has ever maintained that the town could never improve as rapidly as it ought nor the resources of the country be fully developed until we secure the all powerful aid of this ever successful engine of progress; that *without* it our advancement must be slow, but that *with* it we could soon compete in material prosperity with any portion of the American continent.

A little over four years ago several of our friends met in our office and prepared a charter for a railroad from Elizabeth City to Norfolk Va. It was sent to Raleigh and passed the Legislature on the 16th of January 1870. As the sequel will prove this was the "casting of bread upon the waters." It was not labor in vain.

In the meanwhile a party was engaged in forming the Atlantic Coast Railway Company. They worked earnestly and in good faith. With its history and operations our readers are familiar. Its purpose was to build a road from Norfolk by way of Elizabeth City to Edenton. County and local subscriptions were secured and everything was ready to begin work when the panic came and suspended operations. After a long delay, causing some of its friends to fear that the enterprise had been abandoned, and after surmounting numerous embarrassments, the Company was reorganized and met at Norfolk, Va. on the 7th inst. to close the contract for building the road and commencing the work. At that meeting the charter of the Company was submitted to able counsel who, after thorough examination, pointed to defects which raised the question as to the wisdom of proceeding under it. The parties were then made acquainted with the charter we have referred to. They came over to Elizabeth City to examine it. They found it full, ample, and liberal. After deliberation they decided to organize and proceed with the railroad enterprize under its provisions, as it will allow them to extend the road to Edenton or any other point.

A meeting of the incorporators was at once called. They met at the "Albemarle House" on the 12th inst. A subscription was opened, the amount of stock required before organizing subscribed, and the following named gentlemen elected Directors: D. G. BUSH of Bellefonte, Pa., WALTER H. TAYLOR L. D. STARKE and JOHN L. ROPER, of Norfolk. Va., GEO. D. POOL and C. W. HOLLOWELL of Elizabeth City, N. C., THOS. G. SKINNER of Hertford, N. C., H. A. GILLIAM, of Edenton, N. C., and W. A. GREENLEAF, of New York.

At a meeting of the Directors the following officers were elected: D. G. BUSH, President, W. H. TAYLOR, Vice dent, W. A. GREENLEAF, Secretary, R. F. OVERMAN, Treasurer, W. F. MARTIN, Counsel, H. T. GREENLEAF, Engineer.

A contract to build the road was at once entered into with SYDNEY G. MILLER of New York. He is a gentleman of high character and large experience, having been engaged in building railroads since 1848, in which year he built the New York and New Haven road. Since then he has built the Stockfield and Pittsfield road in Mass., the Albany extension of the Harlem road in New York the Roanoke Valley road in Va., the Macon and Brunswick road in Ga., in addition to several others, both North and South.

THE CIVIL RIGHTS BILL.

This week we publish on our first page the Civil Rights Bill as it passed the Senate. Read it, scan it, analyze it and tell us frankly, men of judgment and fairness, what is there in it to alarm or horrify any good citizen? It does not favor any color or any class, but maintains the equality of *all citizens* before the law. Take up the Constitution of the United States and read the Fourteenth Amendment, *now endorsed by both political parties*, and tell us wherein this bill is more obnoxious for *rights* than that. But the bill did not pass the House; no, it will in its present form, simply because there is no necessity for it. And because there is no necessity for it. One will be hurt nobody be [illegible] scared.

The Fourteenth Amendment to the Constitution is as follows:

ARTICAL XIV, *Section* 1. All persons born or naturalized in the United States and subject to the jurisdiction thereof, are citizens of the United States and of the State wherein they reside. No state shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States; nor shall any State deprive any person of life, liberty, or property, without due process of law, nor deny to any person within its jurisdiction the *equal protection of the law.*

Sec. 5. Congress shall have power to enforce by appropriate legislation, the provisions of this article.

The Democratic Party at its National Convention held in Baltimore in July 1872, adopted a platform of which the following are the 1st and 2nd planks.

First. We recognize the equality of all men before the law, and hold that it is the duty of *Government* in its dealings with the people to mete out equal and exact justice to all, of whatever nativity, race, color, or persuasion, religious or politic.

Second. We pledge ourselves to maintain the Union of these States, emancipation, and enfranchisement, and to oppose any reopening of the questions settled by the Thirteenth, Fourteenth and Fifteenth Amendments to the Constitution.

With this record where is the consistency of all the Democratic howling about the Civil Rights bill? The truth is, they are only making an attempt to frighten the timid. But they'll find the people won't "scare worth a ——." We repeat it, the bill won't pass and the Bourbons are mad about it because they really wanted some pretext to growl and perpetuate ill feeling.

OUR MATERIAL INTERESTS.

Our readers will bear us witness that we have never suffered an occasion to pass unimproved when we could say a word in favor of Development and Progress. This section of Eastern North Carolina is wonderfully favored with natural advantages both for Agriculture and for Manufactures. All that is needed is a wise and practical utilization of these advantages. Energy and skill are lacking and so is capital. But gradually we are gaining in all, and from the evidences accumulating we have faith to believe that it will not be long before this country will take strides forward that will surprise those "old fogies" who have since the war been preaching that "all is dead in this old land." No, there is *life* here yet. It but needs awakening, and, thank God, it is being awakened. The latent elements of vigor and strength are being called forth and set in motion and the results are far from discouraging.

The work has been slow it is true, but the NORTH CAROLINIAN is not disheartened. Having placed our hand to the plow we do not propose looking back. The work of agitation begun we intend to keep on, "fighting it out on this line" until this District becomes what we believe the God of Nature designed it should be—the most fruitful and prosperous in the Union.

And here let us say, that in this good work we extend the right hand of fellowship to *every* man, who will cooperate in its accomplishment, be his *politics* what they may. We need better farming; we want improved machinery; we require better schools; we are suffering for the want of better transportation facilities. The NORTH CAROLINIAN is the advocate of them all, and it expects to see the day, nor will it be far distant, when it can announce, in behalf of the true public spirited people of this section "*We have them.*" Then will its editor feel that he has not labored in vain.

A few men who were once Republicans but who have "fallen from grace" now try to justify their opposition to Mr. COBB on what they call the "Salary Grab." But we happen to know that they are not sincere. One of them acknowledged to us about the time the bill passed that he thought it was right, and that had he been in Congress he would have voted for it. Another of these vehement declaimers wrote a letter, long afterwards, pledging his support to Mr. COBB on condition that the latter would do him a certain favor! So on through the list. Other motives than principle are actuating these disappointed aspirants.

The Democracy of Pasquotank are in a dilemma. Their present mouthpiece, the candidate for Solicitor, prepared a fierce resolution denouncing the "Salary Grab," but lo! the party in Convention assembled came within an ace of voting it down. After hearing the unanswerable speech of Dr. SPEED they felt that both decency and propriety required that they be not too fast. Their own United States Senator, Gen. RANSOM, tells them: "When you strike LEV. COBB on this matter you strike me." And then their ablest man in the State, Col. WADDELL, not only voted for the whole measure but *voted against its repeal*! The party endorse and sustain him by giving him a renomination.

CAN'T GET IN

The "bolting" movement in this District, instead of inspiring the enthusiasm expected is dwindling into ridiculous insignificance. Republicans are prepost submitting to the [illegible] of the wise press of loud sounding but [illegible] ous ambition. They look with [illegible] thin suspicion upon the [illegible] who have been standing at the door and *curse* because they were not deemed worthy to be invited in to revel in the sweet meats and viands loading Uncle Sam's table. The rules have closed the front door to them and they may pound the gong ever so loudly, they cannot rally strength enough to aid them in forcing an entrance. Every republican [illegible] in declaring unto [illegible] and laws of the [illegible] and, and enforce [illegible]

Why is [illegible] Because her son never sets. —*Ex.*

That's so. Accommodating roosters there are mounting [illegible] that you can [illegible]

[illegible] would be, because they hav'n't got any hair.

At a meeting of the M. E. Sunday School, held at Newland church, the following preamble and resolutions upon the death of Albert Gardner, were adopted.

Whereas, It has pleased God in his almighty providence, to remove from our midst, and from the perplexing scenes of this mortal life, our beloved friend and brother of Newland M. E. Sunday School, Albert Gardner, who departed this life on the 9th day of June, A. D. 1874.

Be it resolved, 1st. That while we bow in humble submission to the Divine will, we express our condolence with the afflicted family in this painful dispensation.

From "A Colored Man"

To the Editor of the North Carolinian:

In your notice of Maj. Yeates' speech last week was good. I heard it. Its whole purpose seemed to me to be to excite the prejudices of race. How foolish. His people and mine have lived here together over two hundred years. Now, in the name of peace and prosperity, let us continue to live as freemen. There is no need of any war of races. Be assured it won't be provoked by us.

As for the Civil Rights Bill, so much talked about, it isn't yet a law, nor are our people urging it at this time. But should it ever become a law we feel that our rights will be regulated as in the past.

A COLORED MAN.

Elizabeth City, June 11th, 1874.

From Washington.

In the United States Senate a large number of bills were acted upon. The House bill to repeal the Sanborn Contract law was reported with amendments also the House bill for the admission of Colorado as a State. A bill was passed to compel Clerks of the United States Courts to make returns of their fees to the Government instead of pocketing them, as many of these officials are in the habit of doing.

In the House of Representatives the Diplomatic and Consular Appropriation bill, a bill to enter free of duty animals intended for the Centennial Exhibition and the bill for the improvement of the mouth of the Mississippi were passed. The bill to provide for postage on printed matter and for other purposes was passed. Under the provisions of their bill, Weekly and Daily newspapers addressed to subscribers or news agents, are to be sent through the mails at the rate of one cent per pound. Newspapers addressed to subscribers in the county in which they are published are to be carried free. The bill to admit Colorado as a State was passed. The Geneva Award bill was passed.

THE remarkable rise in the price of coffee in the face of the abolition of the tariff on that article now turns out to have been the result of a vast speculative combination, having its centre in Rotterdam, Antwerp and Hamburg. From these cities the most elaborate and ingenious calculation were circulated, alleging short crops and increased consumption. Meanwhile the ring kept on buying and holding for high prices. Late reports are to the effect that 800,000 bags are stored at Antwerp, with more to arrive, and that the yield everywhere the present year will be enormous. Most of the speculators are already ruined, having staked their entire capital on the risk. The chances are now that for a long time in the future coffee can be obtained at reasonable prices.

PAIN-KILLER!

1840. 1874.

TIME TESTS THE MERITS OF ALL THINGS.

Thirty Years is certainly long enough time to prove the efficacy of any medicine, and that the Pain Killer is deserving of all its proprietors claim for it, is amply proved by the unparelleled popularity it has attained. It is a sure and effective remedy. It is sold in almost every country in the world, and it needs only to be known to be prized, and its reputation as a Medicine of Great Virtue, is fully and permanently established. It is the great Family Medicine of the age. Taken internally it cures Dysentery, Cholera, Diarrhoea, Cramp and Pain in the Stomach, Bowell Complaint, Painters' Colic, Liver Complaint, Dyspepsia, or Indigestion, Sudden Colds, Sore Throat and Coughs. Taken Externally, it cures Bruises, Boils, Felons, Cuts, Burns, Scalds, Old Sores and Sprains, Swellings of the Joints, Toothache, Pain in the Face, Neuralgia and Rheumatism, Chapped Hands, Frost Bitten Feet, &c.

Pain is supposed to be the lot of us poor mortals, as inevitable as death, and liable at any time to come upon us. Therefore, is important that remedial agents should be at hand to be used on emergency, when we are made to feel the excruciating agony of pain, or the depressing influences of disease. Such a remedial exists in Perry Davis' "Pain-Killer," the fame of which has extended over all the earth. Amid the eternal ices of the Polar regions, or beneath the intolerable and burning suns of the tropics its virtues are known and appreciated. And by it suffering humanity has found relief from many of its ills. The effect of the Pain-Killer upon the patient, when taken internally in cases of Cough, Cold, Bowel Complain, Cholera, Dysentery, and other affections of the system, has been truly wonderful, and has won for it a name among medical preparations that can never be forgotten. Its success in removing pain, as an external remedy, in case of Burns, Bruises, Sores and Sprains, Cuts, Stings of Insects, &c., and other causes of suffering has secured for it the most prominent position among the medicines of the day. Beware of counterfeits and worthless imitations. Call for Perry Davis' Vegetable Pain-Killer, and take no other.

Camden County Republican Convention

Local and Personal.

☞ Judge ALBERTSON will hold Court at Manteo, Dare county, next week.

☞ The Republicans of Camden will hold a Convention for nominating county officers &c on the 27th. See the call.

☞ A correspondent from Coleraine informs us that J. H. ETHERIDGE, of that place, died very suddenly of Heart disease.

☞ The latest quotations at New York are: Gold 110¼, Cotton 18, Corn 83 to 86. At Norfolk, cotton 16½, Corn 82.

☞ The Chairman of the Congressional Convention has forwarded us the names of the District Executive Committee. The names will be announced in our next issue.

☞ If you want to find out a man's real disposition take him when he is wet and hungry. If he is amiable then, dry him and fill him up, and you have an angel.

☞ The warm weather is upon us in earnest, and it is wilting the people effectually, making them all sigh for a "boundless contiguity of shade." Prepare for Nags Head.

☞ At the regular communication of Eureka Lodge, A. F. & A. M. of this place held on the evening of the 8th inst. the following officers were elected for the ensuing year: JAMES L. BALL, W. M.; W. W. GRAVES, S. W.; JACOB SALOMONSKY, J. W.; JOS. SALOMONSKY, Sec. and S. WEISEL, Treas.

☞ A friend writes us saying: "Your editorials are acting upon the turbulent (political) spirits here like soothing syrup upon difficult cases of dentition." We are glad to hear it. Cases *may* occur where a little blistering and the scalpel will be indicted. We are in the habit of treating cases according to symptoms—mildly when safe, heroically when necessary.

☞ Through an unusual press of business we neglected to notice in our last issue the visit of P. H. WELSH, Esq., Agent of the "Metropolitan Life insurance Co." We have known him for some time and because of our confidence in him and the company he represents we decided to take out a Life Policy in it. We have studied Life Insurance a good deal. We know something about most of the Companies, and have been insured since 1859; but we are free to confess that, all things considered, we feel safer with a Policy in the "Metropolitan." Mr. WELSH's present address is Gatesville, N. C.

☞ A few days ago we met a Democrat from Dare. We asked him, "How about Congress?" He did not hesitate to give it as his opinion that Mr. COBB's vote would be largely increased. He based it on the fact that the people were going to support the man who had increased their postal facilities and secured for them Light Houses and Life Saving Stations. Said he, "Mr. COBB is stronger in my county than ever before." We were satisfied.

☞ We learn that some of the Democratic speakers at Currituck the other day charged the failure of last year's crop upon the Republicans. This is "richness." It isn't any wonder they perspired until their shirt collars were ringing wet, for to make a Democratic speech on such small capital is hard work with the mercury up in the nineties. Why don't they charge the hot weather also upon the Radicals? They are just as responsible for the one as for the other.

☞ On Wednesday next the Masonic fraternity of this place propose holding a celebration and Pic Nic. The procession will form in the morning and after parading several prominent streets will march to the beautiful Grove on the river bank fronting the residence of Dr. UNDERWOOD where an oration will be delivered, after which a Dinner will be prepared at which all Master Masons and their families, all widows and all orphans of deceased Master Masons are cordially invited to participate.

☞ We are pained to learn of the the death of Mrs CONROW, wife of THORNTON Conrow of Philadelphia, Pres of the Albemarle Bank of this place and the senior member of the firm of Conrow Bush & Lippincott. It occured one day last week and we gather the particulars from the *Bulletin*:

Last evening, shortly after eight o, clock, as Mr. Thornton Conrow, No. 1912 Spring Garden street, was returning from a drive in the West Park, his horses were frightened by a train of cars on the connecting railroad bridge. Mrs. Conrow and child alighted from the wagon and walked across Girard avenue bridge and some distance along the Old Park. It was thought that the horses had quieted down, and Mr. Conrow alighted and placed his wife and child in the carriage. As he was getting in, the horses started and he held the reins for some distance, but a sudden plunge from the horses jerked the reins from his hands and prostrated him. The horses passed out the Park and at Twenty-fourth and Green streets, Mrs. Conrow was thrown out and seriously injured. The child fell over her and was not hurt. Mrs. Conrow was removed to her residence and medical aid summoned, but she expired at 6 o clock this morning. The whistles of the Guards attracted the attention of hundreds of cttizens, who endeavored to stop the animals, but no human power could have done this.

☞ We learn that on the 5th inst. at Plymouth, N. C., Mrs. PENOLOPE, consort of Maj. ASA O. GAYLORD, after a lingering illness from paralysis, passed to her rest. She was one of the few remaining older citizens of that place, aged 69 years. She was an exemplary member of the Methodist E. Church, and was beloved by all who knew her. A consistent Christian, she has gone to her reward.

☞ We send this issue of the NORTH CAROLINIAN to a number who are not subscribers. We do so at the suggestion of friends who feel that a paper whose main object is to inspire a feeling and arouse an interest in improving and developing the boundless resources of this country should have a wider circulation. Those who thus receive it and like it can secure its regular visits by remitting the price of subscription.

☞ At last! The agitation, and argument, and labor on the railroad question are culminating in "practical results." The Company is fully organized, the Contractor is here, the Engineers have commenced the permanent location, and the work of clearing and grading will begin in a few days. For particulars see our editorial page. The Company mean business and they propose demonstrating it to the satisfaction of our people. Now let the subscriptions be completed. Push them.

☞ The NORTH CAROLINIAN makes no claim to the gift of prophecy and yet the history of the past five years will show that its predictions rarely fail in being fulfilled. Two years ago the "mathematical" editor of the late *Economist*, peace to its ashes, brought his ponderous *arithmetic* into requisition and a week before the election, with a confidence that made his friends wager money and *lose* it, ciphered his candidate in by a majority of 700. We kept our head cool and level, and predicted that he would be beaten by about twice that number. The returns proved us correct. To day we feel to declare, and we do it with more confidence than we did in the last canvas, that Mr. COBB will beat Maj. YEATES worse than he did Col. CARTER two years ago. Mark the prediction.

☞ There are hundreds of men in this District who have just claims against the government for property destroyed or taken and used by the Federal forces during the war. Some of these have been presented, but because of informality the Claims Commission have rejected them. A large number have never been made out. Under the present law and rulings *all these claims* can now be brought before the Congressional Committee on War Claims. Mr. COBB is the only Southern member on that Committee. The action of that Committee, if favorable, settles the question because Congress usually acts upon the unanimous reports of its committees. Defeat Mr. COBB and the Southern people will have no representation—no voice in that Committee. Do this, and what chance will there be for a Southern man's Claims? Think of this you that have claims of this kind against the Government. Your only hope is in the reelection of Mr. COBB.

☞ "Out of the abundance of the heart the mouth speaketh." The Democratic candidate for Congress is an instance. In his speech at Elizabeth City he gave utterance to sentiments that revealed him to our people in his true character. Every colored man in the District now knows that Maj. YEATES is his enemy: that he hates him; that if elected he would use his influence to oppress him and keep him down in ignorance and degradation, and every white Republican—those who have borne ostracism and contumely because of their fidelity to their principles, will not forget the speech delivered on the night of the 6th of June. They think and act for themselves. They are neither cowards nor fools. They claim as much "honesty," and "intelligence," and "decency," if it comes to that, as the proudest Conservative in the land, and could Maj. YEATES, by any process, see the color of their hearts he might be surprised to find them not a shade "blacker" than his own.

☞ A friend writes to inquire whether in the Judicial canvas we propose making it bitterly a partisan one. We frankly answer *no*. We presume that at Hertford to-day Judge ALBERTSON will be nominated by the Republicans. Our readers know our opinion of him as a man, a lawyer, and as a judge. He stands high in our esteem and in that of the public. And his opponent is also a gentleman of high character and of more than ordinary ability. We have had the good fortune to enjoy his personal acquaintance for years. He has been a reader and patron of the NORTH CAROLINIAN from its first issue, and he has more than once had a good word to say encouraging it in its work of advancing the material interests of this section of the State. Hence in supporting Judge ALBERTSON we do not purpose going out of our way to attack Mr. EURE.

☞ We know of nothing more calculated to effectually settle the question whether or no a man has inherited the disposition of old grandfather JOB than a nullifying horse or a stubborn mule. In the days of "old lang syne" we've had our share of experience with both. We had almost forgotten these *trials* when, the other day, an incident reminded us of them. An acquaintance of ours was out riding with his "sweetheart." All things passed on pleasantly, both of them forgetful of the past, thoughtless of the future, *absorbed in the present*, when they came to forks in the road. Our young friend desired to go one way, the horse the other. In the parley between man and beast the latter *nullified*! The more it was urged to go the more it *wouldn't*. Neither the see-sawing of the reins or the vigorous application of the whip made the least impression. It was too much for our friend. Though a man of few words, we saw that but for the presence of his fair companion the demands of the occasion would have called upon the entire limits of his reserved vocabulary. The climax was capped, his patience was exhausted, he was overwhelmed. The beast conquered.

LOCAL BRIEFS—The TOWN Commissioners have employed THOMAS BROTHERS as Superintendent of the streets. His large experience qualifies him for the position.—A number of distinguished lawyers were in town last week, trying an important case. Among them were Col. J. W. HINTON of Norfolk, WILLIS BAGLEY, of Hertford, and Maj. H. A. GILLIAM, of Edenton.—The celebration of the colored Odd Fellows on Thursday last passed off pleasantly.—Among the important arrivals last week were D. G. BUSH Esq., of Bellefonte, Pa.; SYDNEY G. MILLER and DR. W. A. GREENLEVF of New York.—We never saw corn and cotton growing faster than during the past ten days.—Our advertisers infringe somewhat on our reading columns this week.—Huckleberries are in the market.—During the thunder shower on Wednesday evening last the Schooner of Capt. TATE at this place was struck and badly damaged by lightning.—A young man named GARDNER, in the upper part of th county, died of sunstroke one day last week.—A colored man named GEO. PERRY fell out the third story of Bunnell's Building one night last week. He is recovering.—Our usual story is crowded out this week.

LOCAL FORT-FOLIO.

Always do as the sun does—look on the bright side of everything. Should never stand upon trifles—men with large feet. The best thing before singing—breath. Spell bound—b-o-u-n-d. SEEING IS BELIEVING:—If did this liberal age there are persons to be found who are so blinded by prejudice are not to believe that a man medicated stimulant is an item of immense importance in the catalogue of human remedies, we should like them to witness the wonderful effects which Hostetter's Stomach Bitters are now producing all over the country in cases of intermittent fever, rheumatism, billious disorders, dyspepsia nervous complaints, constitutional depility, mental depressions and premature decay. The great vegetable invigorant and its cures have been before the people for more than twenty-five years, and in every year of the twenty-five its popularity has increased and its sale has become larger. Yet there are no doubt many thousand of intelligent citizens who have never had an opportunity of observing for themselves the surprising changes which this unebualled tonic and alterative produces in systems which seems to be hopelessly broken, and in cases of diseases which are not amenable to ordinary remedies. Probably many of these regard the statements made in relation to the sanitary properties of the Bittess which some degree of incredulity. Would that all such skeptics could see with their own eyes what the medicine is doing for the sick and feeble everywhere, what a stuff of life it is proving to the aged and infirm, what a help in times of troble to feeble women suffering from the complaints and disabilitie peculiar to the sex, what a protection to health and life in malarious districts, what a panacea for languor and depression, what a specific for all diseases in which the system requres to le vitalized and sustained. Of all stimulants it is the purest and safest of all tonics the most genial, effective and agreeable, of all alterative the least violent and the most certain in its beneficial result.

TWO AMERICAN MAGAZINES.—

The excellence of AMERICAN MAGAZINES has become so well recognized abroad that one of the leading English Papers, the LONDON WEEKLY REGISTER, in a recent issue, thus speaks of SCRIBNER MONTHLY.

"We are constrained to own that SCRIBNER'S MONTHLY carries off the prize against all shilling monthly serials for brilliancy of illustrations and variety of contents. It is simply a wonderful shillen's worth. Nothing can be more charming than the cuts,—full of force and vigor; the light and shade are managed with a truly artistic power. Out of its one and twenty original articles, we really do not know which to choose as best, for each and all are excellent."

Not only is it true that Scribner's Monthly excels the English Magazines, but it is "The Best of the American Monthlies."

In the extent, variety and artistic excellence of its illustration of American themes, it has never been even approached, much less excelled. It has a large page and gives a greater variety in its contents than any other of the Standard American Monthlies.

In literary character, and in the brilliance and ability of its Editorial Departments, it enjoys an equal pre-eminence.

Its conductors started with the definite aim of making it the best magazine in the world; of which they have for a moment lost sight, and they point with pride and pleasure to the May and June numbers, recently issued and ask for them a candid examination and a careful comparison of their merits with those of other magazines; and they renew their pledge to the public, to strive for still higher excellence in the future.

A considerable demand has recently arisen in England for Sir. Nicholas, Scribner's New magazine for boys and girls, one publisher desiring to secure an edition of three thousand of first bound volume (when completed) with his imprint.

The success of St. Nicholas in this country has been even more remarkable than that of Scribner's Monthly. It is pronounced to be "an ideally perfect Magazine for children" and, as is the case with all the best litterature for children, it has been found to possess surpassing interest for grown-up readers, as well.

The influence of the periodicals of the day can scarcely be estimated, especially upon the rising generation. Parents and teachers cannot afford to be indifferent to this influence, or careless in relation to the character of the literature furnished to the children outside of their school lessons. In St. Nicholas not only are History, Natural Philosophy, Literature, Fine Arts, and Manufactures presented in an attractive way to young readers, but the children are stimulated to seek information for themselves,

The Publishers will send to any address a specimen number of St. Nicholas, postage prepaid, on receipt of ten cents, the bare cost of paper and printing. The magazines are sold by all firstclass Booksellers and Newsdealers, everywhere.

Questions to be Considered in Buying a Machine.

What are the desirable features of a Family Sewing Machine?

It must be simple in construction, that it may be easily learned, and not liable to get out of order; silent in its operation—rapid in the execution of work—easily changed from one kind of work to another—capable of doing every variety of work—must run easy, so as not to fatigue the operator, and with all these, must be durable.

Agents Wheeler & Wilson Sewing Machine;

GENTS.—I have had in my family for some time an improved Wheeler & Wilson Machine, and am confident it is the best family Sewing Machine in use; for several reasons, viz: It runs lighter, makes less noise, is more durable and does a greater variety of work with no trouble to apply the attachments.

M. B. CULPEPPER.

E. City, N. C., Nov. 8th, 1873.

Affidavit of N. B. Stoope.—I have visited all the principal Sewing Machine manufactories, and have had the best facilities for finding out not only what was the best, but why it was best. Wheeler & Wilson is the simplest in parts, the most direct, quiet and rapid in action of any two-thread Machines. Other Machines cannot keep up with it. I now sell all kinds, and ten of them to one of any other. Others come back for exchange, with many murmurs and complaints. These never; once sold they are gone; as an article of merchandize, they are always saleable. Richmond, Va., June 23 1871.

Battleboro, N. C. Aug., 8, 1871.

Dear Sir. In reply to your inquiry as to how I like my Wheeler & Wilson Sewing Machine, I would state that it gives entire satisfaction. And the longer I use it, the more I am pleased with it. I prefer it to all others for the following reasons; It runs so lightly that it produces no fatigue to operate it, and makes so little noise that it can scarcely be head across the room. It makes a beautiful lock stich, which is alike on both sides of the fabric sewed, and which is not only a great saving in thread, but will not ravel out like the work done on chain stitch Machines. It is simple and easy to manage, and is adapted for all kinds of family sewing. It has no equal.

Respectfully, Miss E. R. POOL.

Dinwiddie Co., Va., August 14, 1871.

I have owned a Wheeler & Wilson Sewing Machine for 18 years and it have done the best, as well as the heaviest work upon it, for 3 years during the war, a colored girl in my employ made soldiers' clothing upon it. It is still in good order, and has never cost me but 75 cents for repairs. If I had to purchase another Machine, I would have none but a Wheeler & Wilson. Mrs. WM. P. DAVIS

This is to certify that this Machine, No. 230, is the same one that we purchased in the year 1866, and have been using ever since, until the present time, when we have exchange it for a new one. JULIA S. SELDEN.

Dr. J. Walker's California Vinegar Bitters is a preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, What is the cause of the unparalleled success of VINEGAR BITTERS? The answer is, that they remove the cause of disease, and restore the patient to health. They are the great blood purifier and a life giving principle, a perfect Restorer and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS in healing the sick of every disease man is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs, in Bilious Diseases.

If you are suffering from disease, or feel unwell, try a few bottles of VINEGAR BITTERS. Don't wait until you are entirely prostrated before you use them, but commence taking them as soon as you feel that you are sick, and realize the fact that a few bottles will prevent an attack of fever or sickness, and counteract the effects of the poisonous vapors that are in the air you breathe. Remember that Vinegar Bitters is a great preventive as well as cure, and that it is the best safeguard against sickness that can be used. Keep your blood pure, your stomach healthy, your digestive organs in order, by the occasional use of VINEGAR BITTERS, and you will escape the scourges that destroy your fellow men.

No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.

Grateful Thousands proclaim VINEGAR BITTERS the most wonderful Invigorant that ever sustained the sinking system.

Bilious, Remittent, and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to Dr. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.

Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goitre, Scrofulous Inflammations, Indolent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Sore Eyes, etc., etc. In these, as in all other constitutional Diseases, WALKER'S VINEGAR BITTERS have shown their great curative powers in the most obstinate and intractable cases.

For Inflammatory and Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys, and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.

Mechanical Diseases, Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALKER'S VINEGAR BITTERS occasionally.

For Skin Diseases, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ringworms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuges, no anthelmintics, will free the system from worms like these Bitters.

For Female Complaints, in young or old, married or single, at the dawn of womanhood or the turn of life, WALKER'S VINEGAR BITTERS display so decided an influence that improvement is soon perceptible.

Jaundice.—In all cases of jaundice, rest assured that your liver is not doing its work. The only sensible treatment is to promote the secretion of the bile and favor its removal. For this purpose use VINEGAR BITTERS.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

DESCRIPTIVE CATALOGUE.

OF VALUABLE

NORTH CAROLINA LANDS,

FOR SALE BY

GEORGE D. POOL,

Real Estate Agent,

ELIZABETH CITY, N. C.

In preparing my list of lands and other property for sale, I would say that no section of the United States offers such inducements for capitalists and emigrants, as this section of North Carolina. Its inexpensive and healthfulness, in pleasantness of climate, in the sociability of the people, in the fertility of its soil, no section can excel.

A railroad will soon be built North, putting this place in direct communication by rail with any city in the United States. This, together with our present facilities for farming and manufacturing the most certain early completion of already projected works of improvement for putting in nearer, cheaper and easier communication with the Ocean, will render this one of the most important commercial, and manufacturing points on the Southern country.

A desirable house and lot in the town of Elizabeth City on the corner of two principal streets, the principal one, and situated in the best business locality in the town. The lot contains about two acres of land, and the building consists of a fair dwelling three stories high, containing eight rooms, all in good order, another two story building with four rooms and pantries, dairy, smokehouses, stables, &c. The dwelling has a good cellar under it. There is room on the front lot to erect two good stores, and they would occupy the best stand in the town for merchandize.

A farm of 700 acres in Pasquotank County, 6 miles from town, with fine two story dwelling, large barn, kitchen and other outhouses; as also, two other dwellings, barns and other houses at different points on the farm. This farm is all cleared but 150 acres, is free from swamps and other waste land, and is well adapted to raising corn, wheat, cotton, oats, &c. The price is 14,000, in easy payments.

A farm of 500 acres in Pasquotank County, 6 miles from town, and one mile from the River, with good new dwelling built in modern style, barn, stables, four tenant houses scattered over the farm, fine water, &c. This farm is situated on the most public road in the County, has 300 acres cleared and balance in splendid pine, oak, cypress, maple, sweet gum, and other valuable timber. It is peculiarly adapted to raising cotton, $50 per acre, net, having been realized on a part of it this year in cotton. It also grows corn, wheat, oats, and other crops well. Price $12,000 in easy payments.

Two tracts of land lying on Pasquotank River four miles from town, neatly cleared, and in good cultivation, one contains 1,000 acres, and the other 600 acres. Both have good fisheries, and the land is equal to any in this section. Price $20.00 per acre in easy payments. Also several smaller tracts for sale, ranging from 50 to 100 acres each, at low prices, and on easy terms.

Also two fine farms in Pasquotauk county, 10 miles from Ex City, within half mile of church, school house and post office. One tract contains about 400 acres, with fair buildings and mostly cleared, and the other contains 300 acres, with good two story dwelling, large barn, and other outhouses, both are offered at $20 per acre, one third cash, balance in one and two years.

Three farms—one of 100 acres, one of 80 acres and one of 190 acres, within two miles of town, mostly cleared land. Price $20 per acre for each tract—payments on easy terms. Also many other valuable farms and town lots too numerous to mention.

THE GREAT BALOON.

You've heard about the great balloon,
In which Professor Wise
Proposed to go to Europe,
By sailing through the skies,
He proposed to show the people
A quicker way for trips
Than ever had been known before,
By sailing o'er in ship.

Well everything seemed lovely
Upon that Autumn day,
When they began to pump in gas
To bear the barge away.
They pumped and pumped with all their power,
